Doe argues that the law is failing to protect women from these abuses. She cites numerous cases in which women have been harassed, discriminated

against, and even assaulted by powerful men, only to see their complaints dismissed or ignored.

Doe also examines the role that the media plays in perpetuating sexism and abuse of power. She argues that the media's focus on sensational stories about women who are victims of abuse often obscures the systemic nature of the problem.

How Men Treat Women at the Highest Levels is a powerful and timely book that exposes the urgent need for change. Doe's incisive analysis and compelling storytelling make this book essential reading for anyone who wants to understand the true extent of sexism and abuse of power in the workplace.
