Mediation is a powerful tool for resolving healthcare disputes. It is a confidential and voluntary process that allows parties to work together with a neutral third party to reach a mutually acceptable resolution. Mediation can be used to resolve a wide range of healthcare disputes, including

medical malpractice claims, patient safety issues, and insurance coverage disputes.

Mediating Clinical Claims provides a comprehensive overview of the mediation process, from start to finish. The book covers the following topics:

- The benefits of mediation
- The different types of mediation
- How to choose a mediator
- The mediation process
- The role of the parties
- The role of the mediator
- The settlement agreement

Mediating Clinical Claims is an essential resource for healthcare professionals and attorneys who are involved in clinical claims. This book provides the practical guidance and real-world examples that you need to successfully navigate the complexities of healthcare dispute resolution.

Author

Garrett Ham is a mediator and healthcare attorney with over 20 years of experience. He is the founder of Ham Mediation, a mediation practice that specializes in resolving healthcare disputes. Garrett is also an adjunct professor at the University of Denver Sturm College of Law, where he teaches a course on healthcare dispute resolution.

Reviews
