# The End of the Peace Process

A Comprehensive Guide to the Collapse of the Israeli-Palestinian Negotiations

The Israeli-Palestinian conflict is one of the most intractable conflicts in the world. For decades, the two sides have been locked in a cycle of violence and retaliation, with little progress towards a lasting peace. The peace process, which began in the early 1990s, was seen as a glimmer of hope for a resolution to the conflict. However, the process has since collapsed, and the prospects for peace seem more distant than ever.

The End of the Peace Process is a comprehensive guide to the collapse of the Israeli-Palestinian negotiations. It provides an in-depth analysis of the key factors that led to the failure of the peace process, including the rise of Hamas, the assassination of Yitzhak Rabin, and the outbreak of the Second Intifada. The book also examines the impact of the peace process on the lives of ordinary Israelis and Palestinians, and offers a sobering assessment of the prospects for peace in the region.
