Chapter 1: The Historical Roots of Urban Inequality

This chapter explores the historical origins of inequality in American cities, tracing its roots back to the nation's founding and industrialization. It examines how factors such as slavery, segregation, and economic restructuring have played a significant role in creating and maintaining disparities.

Chapter 2: Power Structures and Political Representation

Who governs our cities, and how do they represent the interests of different groups? This chapter investigates the power structures that shape local politics, including the role of political machines, party politics, and special

interests. It also analyzes how these power structures affect the representation of marginalized communities.

Chapter 3: Policy Choices and their Distributional Effects

Local governments make countless policy decisions that have profound impacts on the distribution of resources and opportunities within cities. This chapter examines how policies related to housing, education, transportation, and public safety contribute to or mitigate inequality.

Chapter 4: Community Organizing and Grassroots Movements

In the face of inequality, communities often turn to grassroots organizing and protest movements to advocate for change. This chapter explores the role of community organizations, social movements, and protests in challenging the status quo and pushing for more equitable policies.

Chapter 5: Case Studies of Urban Inequality

To illustrate the complex dynamics discussed in the book, the authors present case studies of urban inequality in several American cities. These case studies provide a deeper understanding of how local politics, history, and community activism shape inequality in specific contexts.

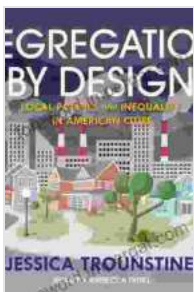

Chapter 6: Policy Recommendations and Future Directions

The book concludes with a discussion of policy recommendations and future research directions to address urban inequality. It suggests policy changes that can promote equity, empower marginalized communities, and create more inclusive cities.
